

CERTIFICATE

This document is to certify that Mr. Vasileiadis Vyronas, student of the University of the Peloponnese, Birth at 21th of February, 1989 and having an University identification number as 2025200700078 has completed his internship (ERASMUS) training period of IT practices at IT Development Spain starting at 2th of May 2012 and ending at 31th of October 2012.

Within this time I have had a pleasure to know Mr. Vasileiadis and I have to say that he has fulfilled all the tasks given in a professional and highly analytic manner. He has skills to evaluate and design variable techniques and furthermore he can select best practices for the business.

He had a very special task to provide almost everything by working as a "remote work". This is the skill to be mentioned and highly valuable for internationally operating organizations.

I have no hesitation to recommend him into more demanding environment. He will prove to be a valuable asset to any future looking company.

10th of October, 2012 at Fuengirola, Spain

Sincerely

Jukka Palander
